

## WORLD'S TALLEST MAN

The Siberian giant, Kazanoff, recently exhibited in Hungary as the largest man alive, is described in the Journal of the American Medical Association.

He is 34 years of age, his height is 9 feet 3 inches, and he is built in proportion to his height. Thus, his hand in 1 foot 1 inch from finger tips to wrist; his foot is 1 foot 9 inches long; his chest measurement is 56 inches; the circumference of his head is 25 inches and his weight is 458 pounds. To support this huge frame he eats an amount that would satisfy four others of good appetite. In four meals in the course of the day he consumes four or five pints of milk, fifteen to twenty eggs, three or four pounds of meat, five or six loaves of bread, large quantities of potatoes, beans and other vegetables, two or three liters of wine and five or six liters of beer.

These quantities appear to be well attested, as do the measurements of his proportions; but the fact that arrests attention particularly in the accounts of the giant's habits is the enormous amount of sleep that he needs. Normally he passes a large portion of the day in slumber, and he has been known to sleep for twenty-four hours on end. Even when awake his movements are slow and deliberate, and he is inclined to doze off when left alone, the only stimulus to exertion being the cravings of hunger which are said to be acute.

"It is impossible," says American Medicine, "in the light of recent researches on gigantism, to regard this prodigious specimen of humanity as a mere 'freak.'" He must be the subject of pathologic change, probably in the pituitary body. The condition of general symmetrical gigantism gradually developing is not in all points like true acromegaly, but is closely allied to it. The prognosis with regard to longevity cannot be said to be bright. Kazanoff has now

left for his fatherland, Siberia, where he intends to help his parents in farm work."

## ARE THEY GENUINE?

We were accosted the other day by a stranger and asked the following question: "Are these pictures of purported Breaks genuine?" The stranger was told they were, but it was easily seen that disbelief had entered his soul, or that he had been schooled not to believe a newspaper man. He was told not to take anybody's word as to the genuineness of the views shown but to take a trip to the Breaks and see for himself.
